# Bitdefender® Antivirus For MAC

The best protection for your data and your privacy

## Bitdefender VPN

Bitdefender VPN secures your connections when you are connected to public Wi-Fi networks such as in cafés, train stations, or airports. The VPN also ensures your total anonymity on the Internet.

\* the included VPN secures 200MB daily traffic per device

## Safe Files

Bitdefender monitors the folders where you store important files and documents to prevent modification by an unauthorized application. You can add more folders at any time to protect them against ransomware.

## European Software

Bitdefender has become the European leader in the cybersecurity market, driven by its culture of innovation and its original approach, which have raised the standards of the security industry.

Bitdefender is a European company that respects the privacy and confidentiality of its users' data.

## “Exceptional protection for Mac”

### AUTOMATIC PROTECTION

Bitdefender Autopilot™ makes the best security decisions automatically and silently.

will help you avoid accidentally infecting the rest of your family, friends, or colleagues who are using Windows.

### ANTI-ADWARE TECHNOLOGY

Bitdefender frees your Mac from adware, toolbars and other unwanted applications installed without your knowledge.

### MULTI-LAYER PROTECTION AGAINST RANSOMWARE

Bitdefender protects your Mac against ransomware. Bitdefender detects and removes ransomware. It also protects your Time Machine backups from encryption and prevents ransomware from accessing your folders containing your personal files.

### WEB PROTECTION

Bitdefender's antiphishing technology analyzes the web pages you visit and alerts you to those that are dangerous.

### NO IMPACT ON PERFORMANCE

Bitdefender technologies use the power of the cloud to detect all new threats, without slowing down your Mac.

### ANTI-MALWARE PROTECTION FOR MAC AND PC

Bitdefender Antivirus for Mac not only detects and removes threats to macOS, but also threats to PCs. This

## macOS

### Your Mac must meet the following requirements:

- Operating system: macOS X Yosemite (10.10) and later
- Available free hard disk space: 1 GB free space
- Compatible browsers: Safari, Firefox, Google Chrome
- To install Bitdefender VPN, macOS Sierra (10.12 or later) must be installed on your devices
- An Internet connection is required to register and update Bitdefender Antivirus for Mac.

Trusted. Always.
