

Bitdefender®

Small Office Security

PROTECTION DESIGNED FOR BUSINESS OWNERS AND VERY SMALL BUSINESSES

Bitdefender Small Office Security offers business owners and small businesses an ideal protection against malware that threatens their business operations.

Designed specifically for small structures, Bitdefender Small Office Security can be deployed, installed and managed easily from a dedicated console.

- ✓ Protection against all threats
- ✓ Easy, configuration-free installation
- ✓ Centralised management from a console
- ✓ Dedicated support when needed

STOP WORRYING ABOUT THE SECURITY OF YOUR BUSINESS!

Bitdefender offers the best level of protection on the market. In the event of a problem, our team of experts is at your disposal via a dedicated phone line.

BEST PROTECTION

Bitdefender offers the best level of protection on the market. Its multi-layered, proactive technologies keep you safe from even the most challenging threats.

EASY TO DEPLOY

You can deploy protection on your employees' devices from your online console, with just a few clicks. The console lets you manage your security remotely.

SUPPORT INCLUDED

Bitdefender business customers have dedicated support in case of a problem. A non-premium number and a dedicated e-mail address for you to contact us.

Bitdefender®

The choice of experts.

Our innovative technologies have won awards for what we do best: offer you the best protection with intuitive, fast and easy-to-use solutions.

Trusted. Always.

KEY FEATURES

Early blocking of attacks

Cyberattacks are becoming increasingly complex and they use vulnerabilities in your system to spread silently. Network Threat Prevention stops attacks even before they begin, blocking any possibility of them spreading.

Protection against ransomware

Businesses are particularly targeted by ransomware. These threats encrypt and lock all data on the device, even on the network. A ransom is then demanded to restore access to these files. Bitdefender provides the most advanced and efficient multi-layered ransomware protection on the market.

A single, easy-to-manage console

Bitdefender features a single console that allows you to manage your business security with a few clicks. Install the protection, manage your devices remotely and get a comprehensive security report and recommendations any time.

Must-have additional tools

Businesses need protection not only for devices. With Bitdefender, your employees will have tools to secure their business passwords, encrypt sensitive data and clean and optimise their PCs, as well as an anti-theft module.

WHY SHOULD I PROTECT MY BUSINESS WITH BITDEFENDER?

THE BEST PROTECTION AGAINST INFECTIONS

(on a scale of 0 to 6, 6 being the highest level of protection)

Bitdefender	5.94
Kaspersky	5.92
Norton	5.87
McAfee	5.35

Total score. March 2011 - February 2023. AV-TEST.⁽⁴⁾

LEGAL OBLIGATION TO RESPECT DATA PROTECTION (GDPR)

The General Data Protection Regulation (GDPR), which came into force on 25 May 2018, requires SMEs to implement their own data protection systems, for which they are solely responsible.
